

BENJAMIN AVENUE - 13th to 1st

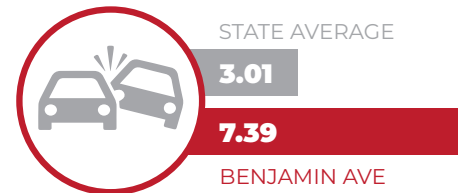

THE NEED FOR IMPROVEMENT

Benjamin Avenue has serious safety issues.

- Benjamin Avenue's crash rate is more than double the state average for a similar roadway .
- Too many access points and a lack of turns lanes significantly affects safety.

VEHICLE CRASH RATE
(crashes per million vehicle miles)

Benjamin Avenue pavement is deteriorating and needs to be completely replaced.

- Major portions of Benjamin Avenue's pavement has exceeded its intended life cycle.
- Stormwater drainage also needs to be improved along the roadway.
- The roadway is not designed to accommodate the increased traffic projection in the future.
