

BRAASCH AVE 1st-5th

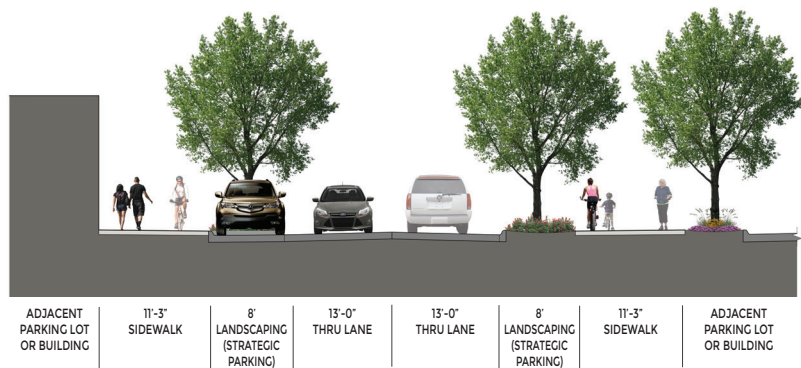

THE PLANNED IMPROVEMENTS

The final design balances city-identified project goals and stakeholder-identified priorities.

- City Goals**
- Create a welcoming environment
 - Promote walkability
 - Landscaping
 - Project aesthetics
 - Cost effective
 - Maintain emergency vehicle routes
 - Enhance Safety
- Stakeholder Priorities**
- Provide pedestrian amenities
 - Maintain sufficient area parking
 - Construction access and phasing
 - Preserve large vehicle accessibility
 - Increase safety

Street View

Aerial View

Impact on Vehicles

- Strategically placed parking stalls
- Slows travel speeds
- Improves traffic flow

Impact on Pedestrians/Bicyclists

- Encourages walkable environment
- Enhances community connectivity
- Vegetation quiets vehicle noise

Maintenance and Future Growth

- Reduces stormwater runoff
- Improves neighborhood livability
- Constructs new utilities
