

Instructions:

There are 73 sections of city streets listed below. Using the "Mark Your Priority" column, select your top 15 street segments for repair. If you would like to add another street section to the list, please write it in at the bottom of the list. This list of street repair priorities is also available on the City website. Scan the QR Code below using your computer browser go to the City Website and click on the orange ribbon across the home page to be taken to an online version of the survey. The community will have three weeks to submit their top 15 priorities. A final prioritized list of repairs totaling \$5,000,000 will be presented to the City Council Infrastructure Subcommittee for review in November of 2023. Surveying and design for the repairs will begin fall of 2023 with the intent to bid a \$2,500,000 project in FY 2024 and bid another \$2,500,000 project in FY 2025.

Note: This list of seventy-three street repairs is not an exhaustive list of street repair needs. It represents a list of priority needs throughout the community. The estimated cost to repair all seventy-three street segments is \$11,737,416. Community response to this survey will be used to prioritize \$5,000,000 in street repairs for FY 2024 and FY 2025.

Item Number	Mark Your for Priority	Street Segment	From	To	Quantity (SY)	Estimated Cost	Type of Work
