

EXHIBIT "F"

Cost-Benefit Analysis (Pursuant to Neb. Rev. Stat. § 18-2113)

The cost-benefit analysis for the Redevelopment Project, as described in the attached Redevelopment Plan, which will utilize funds authorized by section 18-2147 of the Act, is provided below:

1. Tax shifts resulting from the approval of the use of funds pursuant to Section 18-2147:

The taxes generated by the base value of the Project Site will continue to be allocated between the relevant taxing jurisdictions pursuant to the Act. Only the incremental taxes created by the Redevelopment Project will be captured to pay for the project's eligible public expenditures. Since the incremental taxes would not exist without the use of TIF to support the Redevelopment Project, the true tax shift of the Redevelopment Project is a positive shift in taxes after 15 years. However, for the purposes of illustrating the incremental taxes used for TIF, the estimated 15 year tax shift for the Redevelopment Project is set forth in Exhibit "E" of the Redevelopment Plan, and is adopted hereby.

Notes:

- 1. The Projected Tax Increment is based on assumed values and levy rates; actual amounts and rates will vary from those assumptions, and it is understood that the actual tax shift may vary materially from the projected amount. The levy rate is assumed to be the 2022 levy rate. There has been no accounting for incremental growth over the 15 year TIF period.*

2. Public infrastructure and community public service needs impacts and local tax impacts arising from the approval of the Redevelopment Project:

a. Public infrastructure improvements and impacts:

Adequate public access to the Project Site currently exists. However, many of the parking lots and sidewalks are in a state of disrepair, and will be repaired or replaced. The extension and/or construction of new utilities to serve the new tenant spaces in Sunset Plaza Mall will also be required. The Agency and Redeveloper do not anticipate that the Redevelopment Project will have a negative impact on now-existing City infrastructure.

b. Local Tax impacts (in addition to impacts of Tax Shifts described above):

The Redevelopment Project should create material tax and other public revenue for the City and other local taxing jurisdictions. While the use of TIF will defer receipt of a majority of new ad valorem real property taxes generated by the Redevelopment Project, the Redevelopment Project should generate immediate tax growth for the City via increased sales tax receipts from the new tenants. Additionally, the City will collect sales tax on a portion of the materials used for the Redevelopment Project. It is not anticipated that the Redevelopment Project will have any material adverse impact on such City services, but will generate revenue providing support for those services.

3. Impacts on employers and employees of firms locating or expanding within the boundaries of the Project Site:

The Redevelopment Project will result in new and expanded business within the Project Site. It is anticipated that upon completion of Phase One, Kohl's, TJ Maxx and Planet Fitness will occupy the prior Herberger's site, which currently sits vacant. Additionally, it is anticipated that these anchor tenants and the additional renovations conducted as part of Phase Two will attract other tenants to fill the vacant spaces in Sunset Plaza Mall. Accordingly, it is anticipated that the Redevelopment Project will have a positive impact on employers and employees locating or expanding within the boundaries of the Project Site.

4. Impacts on other employers and employees within the City and the immediate area that is located outside of the boundaries of the Project Site:

The businesses surrounding Sunset Plaza Mall have been negatively impacted by the downturn in foot traffic generated by Sunset Plaza Mall. The Redevelopment Project will result in an increase in visitors to Sunset Plaza Mall, which will benefit commerce in the surrounding area. Accordingly, the Redevelopment Project is anticipated to have a positive impact on surrounding employers and employees.

5. Impacts on student populations of school districts within the City:

The Redevelopment Project will not impact student populations in the City.

6. Other impacts determined by the Agency to be relevant to the consideration of costs and benefits arising from the redevelopment project:

The Project Site is blighted and contains substandard conditions that are a detriment to the City as a whole. The Redevelopment Project will revitalize Sunset Plaza Mall, which has fell

into a state of dilapidation and disrepair – and in doing so, occupy vacant spaces without negatively impacting the surrounding businesses, residents or straining the public infrastructure. There are no other material impacts determined by the Agency relevant to the consideration of the costs or benefits arising from the Redevelopment Project. As such, the costs of the Redevelopment Project are outweighed by its benefits.
